MAINTENANCE
INSTRUCTIONS
FOR CLEAN SLATE PU
COLLECTION (BASKET,
BUFF, GROOVE, HIDE,
KID, PONY)

Cleaning Code WS + BC : Clean with mild detergent or shampoo, foam or water-free solvent as desired. Do not saturate with liquid.

Regular Cleaning and Maintenance (Dirt and Grime)

Clean the soiled area with mild soap and water, then rinse with fresh water and wipe dry with a clean cloth.

Food Stains/Oils (Mustard, Ketchup, Chocolate, Coffee/Tea, Salad Dressing)

Wipe the affected area with a soft cloth with appropriate pressure. If some stain persists, clean with mild soap and water. Rinse with fresh water and wipe dry. For stubborn stains spot clean with a 70% dilution of isopropyl alcohol and water and wipe. Rinse with fresh water and wipe dry.

Healthcare/Disinfection (Blood, Urine, Betadine)

Wipe the affected area with a soft cloth with appropriate pressure. If some stain persists, spray it with a 70% dilution of isopropyl alcohol and water and wipe. Rinse with fresh water and wipe dry.

Disinfection: This material will withstand a 20% solution of household bleach and water or Virex or equivalent hospital grade disinfectant cleaner. It is important to rinse the cleaned area with fresh water after applying the bleach solution.

Ink Marks/Graffiti (Ballpoint Pen, Permanent Marker)

Rub the affected area with a dry soft cloth with firm pressure. If some stain is still present spray it with a 70% dilution of isopropyl alcohol and water and wipe. Rinse with fresh water and wipe dry.

Note: Removal of ink, particularly permanent marker, may vary depending on the period of time that the ink sets in. While this material offers excellent protection, full removal is not guaranteed.

Denim Dye Transfer

This material is designed to withstand the transfer of most types of Indigo Dye. In the case that faint dye transfer is visible, this can typically be removed with a 70% dilution of isopropyl alcohol and water.

Note: Removal of indigo dye, particularly from wet jeans, may vary depending on the type of denim. While this material offers excellent protection, full removal is not guaranteed.

Please be careful: These instructions are for the fabric only. Some fabric cleaning methods may cause damage to underlying materials used to make the furniture item.
