MAINTENANCE INSTRUCTIONS FOR 100% SYNTHETIC FIBERS AND FILMS NOT BLEACH CLEANABLE

Cleaning Code WS: Clean with mild detergent or shampoo, foam or water-free solvent as desired. Do not saturate with liquid. Pile fabrics may require brushing to restore appearance. Cushion covers should not be removed and dry cleaned or laundered

- Quickly blot up fresh spills with a dry towel to avoid deep penetration of the stain.
- Pretest a small area before proceeding. To avoid a ring, work with a clean damp cloth from the outside of stain and work inward.
- Use a professional furniture cleaning service for persistent stains and/or when an overall soiled condition has been reached.
- Water-based cleaning agents and foam may be used for cleaning. Mild, water-free solvents can also be used on this fabric. Do not over wet the fabric.
- After cleaning, always rinse with fresh water to remove any detergent or cleaning agent residue from the surface of the fabric.
- Please be careful: These instructions are for the fabric only. Some fabric cleaning methods may cause damage to underlying materials used to make the furniture item.
